The Greek Community in Manitoba Canada are working with the Manitoba government to streamline immigration for Greek nationals to Manitoba. We will be in Athens to assist with a Job Fair, and the Manitoba government will be interviewing pre-screened individuals for both temporary and permanent employment. So far we have about 50 Greek nationals who have expressed interest. Manitoba's immigration program is unique to Canada. Please contact us if you know of any organizations or individuals in Greece who would like to immigrate to Canada.

English requirement

There is some flexibility with provision of IELTS test score for now at these pre-screening stages. If a candidate has completed post-secondary education in an English speaking country and can provide documents evidencing the fact, and does not have a registration for the IELTS test or IELTS score, it is likely to be sufficient to get a scheduled interview with a MPNP representative. The language proficiency will be somewhat assessed during the interview and a candidate might be required to provide IELTS score at the later date.
